

**Weber manifold and linkage set**

Suits 40 or 45 DCOE webers.  
Fits straight-port heads only.

**BroadSport lightweight steel flywheel**

For 9 1/2" clutch units. Various Jaguar ring gears in stock to suit any combination (approximate weight 7.5 kg).

**Part No. C4809N (XK 132 teeth).**

**V12 Weber manifold kits**

Available with or without linkage kits.  
Chesman MotorSport developed for the best fitting available.

All these performance parts are precision engineered by skilled craftsmen to meet the original manufacturer's exact specification. Please call for details and prices.

**Full race flywheel**

For 7 1/4" triple plate clutch.  
For the serious racer only.

**Multi-layer steel head gaskets**

The latest technology from Cometic USA. Developed for NASCAR race engines and now available for Jaguar. A centre shim plate can be supplied in various thicknesses if required. No sealer or extra torque necessary for this superb quality part. Has been successfully tested on race engines up to 14:1 compression!  
**CHG34 - 3.4 litre. CHG38 - 3.8 litre. CHG42 - 4.2 litre.**

**V12 Kit**

Chesman MotorSport 6.1 litre V12 Kit with special 96mm pistons and liners fitted. All development work of this type carried out in house.

**BroadSport Triple Carb Manifold**

If your Jaguar only has two carburetors, our new manifold lets you fit three! Suitable for most XK's except 150S. **Part No. BTM1.**

From Chesman MotorSport / BroadSport pattern work. Recreations of 'works' style breathered cam covers usually found on 'D' types, Listers and lightweight E Types. Available for all cylinder head options and dry or wet sumps.

**Part No. DCC (per pair).**
